

There I go down on my luck
Dropped a 100 won't pick up

Played my last lost my wife
Bet my money to wreck my life

Here I am can't you see
My life is chained to the poker machine

Take my money sucked my soul
Needed help but it took toll

Lost the rent down hill slide
Lose your friends lose your pride

Know one said that's enough
Left me there at the poker machine

Been my drug can't explain
Club man greets me just the same

One step up two steps down
Some may swim many more drown

It's to late can't help me
Life is wrecked by the poker machine
